

Target your risk and insurance exposures with a customized Risk Management Assessment

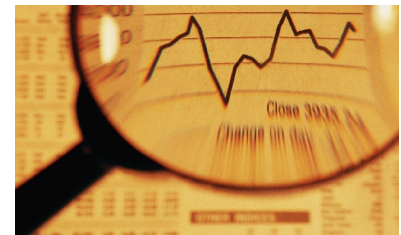

Peace of mind can be yours if you take full advantage of the broad array of insurance coverages available and ensure your business activities are fully insured through a tailored and comprehensive risk assessment.

Turn to a trusted source and you'll obtain...

- An independent and thorough evaluation of your risk and insurance needs for your board of directors, management, and auditors
- A comprehensive review of your insurance policies with an eye for enhanced coverage or coverage gaps
- A reduction in your exposure to uninsured losses
- A decline in your costs associated with insurance through targeted loss control

Three levels to choose from...

- **Choice Level - Limited assessment**
 - Analysis of a self-assessment questionnaire
 - Review of insurance policies
 - Written report with recommendations and information resources
- **Deluxe Level - More comprehensive assessment**
 - Analysis of a self-assessment questionnaire
 - Review of insurance policies
 - Review of contracts and agreements with an eye for insurance requirements and potential gaps
 - On-site meeting with your designated staff to identify additional exposures and clarify information
 - Written report with recommendations and information resources

Additional Services...

- Loss prevention and risk management consulting
- A full-scale Enterprise Risk Management assessment to identify all your risks, whether insurance related or not

In pursuit of excellence, take your risk and insurance analysis to the next level. Capture the Value.
